March/April CMAS testing

April 5 - No School

April 7 - BOE meeting

We made it to the end of March. This year has come and gone so fast, we are down to the final six weeks of the school year. There is no doubt that we will finish this school year strong and prepare for another great school year.

There are great things happening at Sierra Grande. We were selected as one of a handful of schools in Colorado to do an aquaponics project. Our 5<sup>th</sup> and 7<sup>th</sup> graders are learning from NASA ways to do sustainable gardening, there is a lot of excitement with this project.

As a district, we continue to look for resources to help our students. We are currently working on two grant opportunities that will help with summer programming as well as after school collaborations. As we move into this summer and beyond it is our goal to improve our student achievement and give our students the best education in the San Luis Valley and beyond.

Though the pandemic hasn't ended we at Sierra Grande are hopeful that we will be able to start safely opening up our school a little more each day. We are currently planning activities for our students such as Prom, graduation and continuation ceremonies for Pre-School, Kindergarten, 8<sup>th</sup> graders and of course our Seniors.

As always, thank you for the continued support of our students, teachers and staff. It is greatly appreciated. Enjoy your long weekend and stay safe! We look forward to seeing everyone back on Tuesday April 6<sup>th</sup> healthy and ready to finish out the school year "Panther Strong!"
