

## Sierra Grande School District R-30

Dear Parents/Guardians,

As Sierra Grande School District prepares for the 2020-2021 School Year, we understand returning to school in early August this year will be much different than the typical start of school. The COVID 19 Virus continues to be a factor in the decision making process of how to proceed this fall. We would like nothing more than to start the school year under no health and safety threats and restrictions. This, however, is not likely considering the continued presence of the virus.

These are crucial times in decision making and the next few weeks will be important in determining how the school year will start and what specific safety precautions will need to be enacted. With this in mind, we request your feedback as our partner in educating your child. To solicit parent input we have created a survey that is informational and allows you an opportunity to tell us your concerns and issue any questions you might have.

The results of the surveys will be published as well as any comments that are not of a personal nature around mid-July when a final decision will be made concerning which option the school district will start the 2020-2021 School Year with.

In closing, I would like to thank parents in advance for participating in this survey and for your support and dedication to the Sierra Grande School District.

Respectfully,

A handwritten signature in blue ink that reads "Darren Edgar". The signature is fluid and cursive.

Darren Edgar  
Superintendent of Schools
